Press [MENU] to exit programming.

Auto Lullaby

You can configure lullabies to be played automatically from the camera when sound is detected.

Auto Lullaby

Press ▲ or ▼ to select a menu item, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can configure lullabies to be played automatically from the camera when sound is detected.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby - Sound List

Press ▲ or ▼ to select a Lullaby, press OK to confirm.

Press [MENU] to exit programming.

Auto Lullaby

You can specify which lullaby is played when sound is detected or turn lullabies off.

Auto Lullaby – Sound Detect Level

Press ▲ or ▼ to select a level, press OK to confirm.

Press [MENU] to exit programming.

Sound Detection Level

You can adjust the level at which sound is detected. Increase or decrease the detection level needed to trigger the sound sensor.

Auto Lullaby – Sound Detect Level

Press ▲ or ▼ to select a level, press OK to confirm.

Press [MENU] to exit programming.

Sound Detection Level

You can adjust the level at which sound is detected. Increase or decrease the detection level needed to trigger the sound sensor.

Auto Lullaby – Detection Time

Press ▲ or ▼ to select a play time, press OK to confirm.

Press [MENU] to exit programming.

Play Time

You can specify how long the camera plays lullabies when sound is detected.

Auto Lullaby – Detection Time

Press ▲ or ▼ to select a play time, press OK to confirm.

Press [MENU] to exit programming.

Play Time

You can specify how long the camera plays lullabies when sound is detected.

Auto Lullaby – Detection Time

Press ▲ or ▼ to select a play time, press OK to confirm.

Press [MENU] to exit programming.

Play Time

You can specify how long the camera plays lullabies when sound is detected.

Auto Lullaby – Detection Time
