It is highly recommended that you keep the original carton and ALL packing materials since they are necessary when repacking.

■ Minimum Space Requirements
Be sure to maintain the recommended space requirements for proper ventilation.

Top view

Clearance needed to open back door: 350 mm (13.8")

Clearance needed to replace lamp: 550 mm (21.7")

Clearance needed to turn power ON/OFF: 200 mm (7.9")

■ Installing the Lamp

Consult with your service person to install the lamp modules.

1 Open the lamp door.

2 Insert the front side lamp module in the front side lamp module slot until the "click" is heard.

3 Insert the back side lamp module in the back side lamp module slot until the "click" is heard.

4 Connect each lamp cable to each connector.

5 Close the lamp door.

● After replacing the lamp, lear the "Replace X-Lamp" display. (Refer to page 20 of operating instructions.)

■ Installing the Exit Tray Guides and Stoppers

Position the exit tray guides against the document width scale. (Secure the guides in place.)
● Use the exit tray guides when needed.

Push the ends of the exit tray stopper wires slightly together, and insert them into the stopper slots of the exit tray. Then pull up the plastic part of exit tray stopper. (Install the exit tray stopper in the sequence of ① through ③.)

■ Connecting the Unit to a Personal Computer

Connector ———
Use to connect the scanner
unit to the personal computer.

Power cord ———

AC inlet ———

Household AC outlet
- AC100−120 V, 50/60 Hz (KV-SS855D)
- AC220−240 V, 50/60 Hz (KV-SS855DU)

Caution:
Set the power switch at the scanner and at the host computer to OFF before connecting the interface cable.
The product should be used only with the power cord that is supplied by the manufacturer and the interface
cable that is sealed.

This Installation Manual is printed on recycled paper.
